**DO YOU KNOW THE ONE QUESTION THE
INSURANCE COMPANY IS TRYING TO ASK YOU, AFTER YOU HAVE**

I DO, because I have been handling car accident cases for
have represented over 5,000 clients

AND HAVE RECOVERED MILLIONS!

(The question)....DO YOU HAVE A LAWYER?

WHY? ...Because if you do have a lawyer then the insurance company can't talk to you, they must speak with your lawyer. The reason this is so important to your potential injury case is because they want to ask you all sorts of questions such as. Whose car were you in? Where were you going? Did you have a seatbelt? Were you on a cell phone? And most importantly Were you injured?

The answer to those questions could mean the difference between receiving a **significant cash reward** for your injuries and getting nothing! That's right **ZERO!**

YOU NEED THE RIGHT LAWYER!!!

So call me now at 1-800-US-LAWYER (1-800-875-2993)

Still not convinced you should call me...

I didn't tell the police I was injured at the time of the accident.

Don't worry...this happens all the time...when you are involved in an accident your heart starts to race and your body may produce adrenaline. As a result you may not feel pain until hours, days or sometimes even weeks after an accident. The fact that you did not report injuries at the time of the accident and did not go to the emergency room doesn't mean you can't make a claim for your injuries.

But if you are in pain now you need to act fast.

Will my insurance rates go up?

Sadly, one of my clients was so concerned that her insurance rate would go up she didn't want to go to the doctor...six months later the pain was so bad she needed surgery. Do you know what happened next? The insurance company (she was trying so hard to save money for) refused to pay for her surgery. **What they didn't realize** was my client and I had carefully documented her injuries immediately after the accident...I fought the insurance company and got her medical bills paid. **We won the case.**

I don't need another headache!

I know life is crazy for most of us...not enough time in the day, never enough money...maybe I can help...

As a personal injury attorney for nearly 20 years I have had the privilege of representing over **5,000 clients**. Now, not all of their cases were the same but one thing has never changed....

My **100%** commitment to making this process as **stress free** as possible.

I often tell clients..."You worry about feeling better and I will take care of the rest."

What can you do for me?

- **Money Damages:** This is the money you may receive for your pain and suffering.
- **3 years Lost Wages:** Another form of damages you may recover.
- **Lifetime Benefits** for Personal Injury Protection to pay for your medical bills and prescriptions, if eligible.
- **Medical Treatment:** I will get you immediate medical attention for your injuries close to your home or work.
- **Property Damage:** Getting you paid for damage to your car...even a total loss.
- **Rental Car:** While your car is getting fixed you may be entitled to a rental car.
- **3 Years of help around the house money:** another form of help income.

What's this going to cost me?

Excellent question...here's the good news. You don't have to pay me anything to start working on your case. I only get paid if you get paid. That's right, but let's get to the really important part... how much is your case worth.

When you call me at **1-800-US LAWYER** we will discuss every aspect of your case including how much money you may receive. During our conversation I will invite you to come to my office for a **FREE CONSULTATION**. Or we can meet anywhere that is convenient for you. I will even give you **FREE TRANSPORTATION** if you need it... because I realize your car may not be drivable.

Now, what do I need to do?

You need to call me immediately so I can start working for you. One call is all you need to make... **1-800-US LAWYER. Get the money you and your family deserve...** so call now. I'm looking forward to hearing from you.

Very truly yours,

Cyril Weiner

Attorney at Law

Before choosing an attorney, give the matter careful thought. The selection of an attorney is an important decision. If you already are represented by a lawyer, disregard this letter. If you are dissatisfied with your lawyer, contact him or her, and communicate your concerns. Work out your differences, if possible. Many licensed Michigan lawyers are qualified and have expertise in their areas of practice.

Remember to be a responsible member of the community. Only seek treatment from a physician when necessary, and if you are injured. Be honest and forthcoming with your doctors, lawyers and insurance company.
